

ACADEMY DEFEATED WESTERLY 7-0

The big upset of the season came yesterday afternoon on the campus, when N. F. A. in wonderful form came through and won over the strong Westery High eleven by a score of 7 to 0. The advance dope was that Westery would win by a heavy score and they certainly would have done so had they been playing the same Academy team that lost to Stoughton. It was the same team as far as names go, but in every other respect it was as different as black is from white, as someone aptly put it.

It is high time to introduce the hero and who does it prove to be but Capt. Whitney, the fleet quarterback, and sharing the spotlight with him stands Jackie Young, the ever-watchful. In the second half Westery recovered a fumble and in their great surprise found themselves within the shadows of the N. F. A. uprights. Twice they pulled off forward with the utmost neatness, and then the quarterback tried another neat one. The ball went sailing, nowhere in particular, bounced off Williams' shoulder and into the arms of Captain Whitney. Whitt was then standing on his 10 yard line but he did not remain there long. Striding the side line he moved up the field, with all those interested after him and here enters Jackie Young. Jackie was right when it looked as if he were the visiting fullback, was going to land on our feet quarterback, Jackie, who recovered the ball and his 50 yard dash and scored 7 points for his team. He kicked the goal.

The surprising part of yesterday's game was the playing of the Academy line. It was a veritable stonewall, Westery being unable to penetrate it with any consistency. Coach McKay was pleased with their work Tuesday and now that his men are working looks forward to an easy victory over Windham Saturday afternoon on the campus. And unless N. F. A. breaks a leg Westery will be doing well to stay in the same lot with them.

The 300 spectators who watched the game were unanimous in declaring it to be one of the most exciting contests seen in a long time, always excepting the Bulkeley games. Not until the referee's whistle ended the struggle did their hearts beat normally. In the last two minutes of play Westery began forward passing his way down the field, looking decidedly dangerous and when the whistle blew they were within 15 yards of success and happiness.

Coach McKay will have his boys at the gridiron this afternoon and will try to keep them in present form.

Lineups:

N. F. A.	Westery
Left Halfback	Scott
Right Halfback	Hossey
Fullback	Time of period 10, 12, 10, 11.
Touchdown	Whitney. Goal from touch-down. Whitney. Referee L. J. Stanley. Umpire Ferguson.

FIVE AMERICAN LEAGUE CLUBS NOT IN REORGANIZATION PLANS

Chicago, Oct. 19.—If the action of 11 major league baseball club owners last night is going on records as favoring abrogation of the national agreement which governs professional league results in a baseball war, the responsibility will rest with the five American league clubs which have not yet signified their intention of taking part in the proposed reorganization of control of the game, President John Heydler of the National league said tonight in a statement.

The eight National league clubs and the three American league clubs—N. Y., Chicago and Boston—did not declare war when they advocated control of baseball by a tribunal of three men not finally interested in the game, but were making a declaration of principle in order to save the game, Mr. Heydler said.

"The action taken at Monday night's session was the culmination of careful and dispassionate deliberation of men of unquestioned integrity and honesty of purpose and who are determined that in no other way can the revision of baseball government be accomplished and the just demands of the American public be met."

"The men who have so pledged themselves constitute not only eleven-sixths of major league membership but they represent more than three-fourths of the capital invested in the sport. They have charted their course and have committed to see it through at all hazards."

"There is a declaration of principles—not a declaration of war. Protective measures and ways and means, however, have been provided for any eventuality."

"If it does mean war, then the responsibility for war must rest with those who deliberately chose to remain aloof from the councils of their friends."

"Rather than war, I say the door of welcome is wide open and we again plead with all to take their proper place in line and present a united front in this fight for the common good."

"Probability of a baseball war has been freely discussed by baseball men here today, many of them called to testify before the grand jury investigating the baseball scandal. While President B. R. Johnson of the American league refused to be interviewed, friends of his declared an attempt was being made to oust him from the American league presidency. Men who were not favorable to Johnson said his apparent opposition to reorganization was simply a continuation of his opposition to the owners who sided against him last winter."

Some baseball men professed to see the solution of the problem in the meeting of minor league officials at Kansas City Nov. 5, saying that whichever side the minors sided with would win, for the other side would be unable to obtain ball players and would be "starved out."

The eleven owners who attended yesterday's meeting of the grand jury, however, have signed an agreement that they will stick together and form a twelve-club league if the other five American league clubs and the National league refuse to join in the reorganization plans. An ultimatum was issued giving the five clubs until Nov. 1 to make known their decision.

A statement issued after the meeting notified the clubs not represented that they have until Nov. 1 to signify their willingness to join in the reorganization. If they have not come in by that time, the statement says, a twelve-club league will be formed without them. The eleven clubs represented would be included in a twelve-club league and a twelfth member would be chosen from some other city.

The eleven clubs represented would be included in a twelve-club league and a twelfth member would be chosen from some other city.

CLEANED UP.

GAMBLING RING PLANNED TO FIX ANOTHER WORLD'S SERIES

Chicago, Oct. 19.—The special grand jury investigating the baseball scandal today received evidence indicating that a gambling "ring" had planned to "fix" another world series in addition to the 1919 one between Cincinnati and Chicago, according to Replegie, assistant state's attorney, in charge of the inquiry. Mr. Replegie refused to say what world series it was.

The jury today heard further evidence concerning the activities of Hal Chase while in the major leagues, served into the baseball pools conducted in Chicago, and also interested in the proposed reorganization of baseball as outlined at the meeting yesterday of the eight National league club owners and representatives of three American league clubs.

Dan Johnson, American league president, and John Heydler, National league head, were the chief witnesses. Other high baseball officials called to testify were excused.

Johnson was said to have presented new evidence concerning gambling which he had gathered in the last few weeks in New York and other cities.

The jurors questioned Mr. Johnson concerning the proposed baseball reorganization, but he replied that "he knew nothing about it."

The jury detained a witness for the first time when it heard Charles Blazman, a Chicago man, after questioning him concerning the operation of baseball pools. Later, however, Blazman was released, after he had promised to reappear Friday when the next jury session will be held.

ROY ROCK'S ALL STARS AT ASHLAND PARK AGAIN SUNDAY

Owing to the demand of the public that the Ashland team should cross bats again with Rock's All Stars, the Ashland management has decided to play one more game.

Last Sunday's fourteen inning tie has created considerable talk as to the merits of the two teams.

On paper it would appear that Roy Rock's collection of leaguers and the Ashland team would cross bats again in the operation of baseball pools. Later, however, Blazman was released, after he had promised to reappear Friday when the next jury session will be held.

The Ashland boys have shown a nemesis for many of the so-called better clubs this season and Rock's boys are the only club that has forced Ashland into extra innings this season.

Roy is anxious to show again and is confident that he can take home the bacon. However, he admits that he got a big surprise last Sunday and has a lot of praise for the manner in which the Ashland club goes to work.

Probably the only change in either lineup for Sunday is in the All Stars' makeup. Jimmy Conner, former Red Sox and Giant infielder this season in the American Association, will cover

Hudson Alone Can Use the Super-Six Motor

It is true that approach to perfection in the mechanism of a car, tends to obliterate reminders of its presence.

That is why so many speak of the forgetfulness of mechanism which is permitted the driver of a Hudson Super-Six.

They note how silently it asserts its mastery. How, without seeming haste, it travels fast, because there is no fret or fuss. And only the traffic and roadway slipping back to mark the swift pace.

Sometimes we have thought there is a penalty in this distance of the mechanism from the thought of the driver. For we do not desire forgetfulness of the Super-Six motor.

Yet what difference if the driver does not know why the Super-Six principle develops 72% greater power, so long as he knows his Hudson meets every task with the ease of abundant power? What matter if he does not know it adds 80% to efficiency, so long as every comparison in acceleration speed or hill-climbing proclaims the clear-cut supremacy of Hudson?

FINANCIAL AND COMMERCIAL

MARKET MORE STABLE.

New York, Oct. 19.—The stock market was on a more stable basis today, although the aimless drift of prices during the early and intermediate periods continued to reflect economic readjustments at home and abroad.

Labor unrest in England, arising from the coal strike and demonstrations of the unemployed, caused further weakness in foreign exchange, with the rate for British demand bills falling almost to 12 1/2 to the pound sterling.

A significant spotlight on domestic industrial conditions was seen in the sweeping wage contraction for September, payable in several lines of cotton and kindred manufactures showing declines of 25 to almost 40 per cent.

Encouragement was found in the investment situation, however, several new domestic and foreign flotations being subscribed. It also was announced that a \$25,000,000 loan to Denmark is soon to be consummated.

Withdrawal through the local federal reserve bank of some \$10,000,000 of treasury funds had no visible effect on the money market. Call money was placed at 7 per cent, and even 6 per cent, before the close, but commercial paper was in light demand.

Oils, shipbings, tractions and sugars furnished much of the day's limited movement. Utilities were brought on a favorable local decision in Philadelphia relating to higher fares, while sugars were responsive to measures now under way to relieve acute conditions in Cuba.

The few noteworthy gains at the firm close included United Fruit, Mexican Petroleum, Nickel Plate, Sears-Roebuck, Reading and Retail Stores. Sales amounted to 335,000 shares.

Bonds were active and irregular during the early trading. Liberty issues yielding with the prominent rails and industrials, but some of the long found was recovered in the final dealings. Total gains (par value) aggregated \$13,200,000.

Old U. S. bonds were unchanged on call.
